Maryland Gained 10,500 Jobs in May Unemployment Rate Decreased to 4.0%

Lowest Unemployment Rate Since the Start of the Pandemic

The U.S. Department of Labor's Bureau of Labor Statistics (BLS) released state jobs and unemployment data. According to the preliminary survey data, Maryland gained 10,500 jobs and the unemployment rate decreased to 4.0% in May. This is the lowest unemployment rate since the beginning of the COVID-19 pandemic.

Maryland has regained a total of 334,200 jobs, with 313,500 jobs gained in the private sector. Compared with May 2021, Maryland jobs are up by 78,500, an over-the-year change of 3.0%.

The Leisure and Hospitality sector had the largest private sector jobs growth with 4,500 jobs from Accommodation and Food Service (4,400) and Arts, Entertainment, and Recreation sub-sectors (100).

Other sectors that experienced growth include: Mining, Logging, and Construction (1,400); Education and Health Services (1,200); Financial Activities (1,000); Professional and Business Services (300); Information (200); and Manufacturing remained the same.

Sectors that experienced a decline include Other Services (1,000) and Trade, Transportation and Utilities (200).

April's preliminary jobs estimate as reported by BLS was revised downward by 400 jobs, from a loss of 500 to a loss of 900 jobs. Since the beginning of 2022, Maryland has gained 28,500 jobs.

Foam Manufacturer to Expand Production Bringing 225 Jobs to Harford County

According to Furniture Today, specialty foam manufacturer Elite Comfort Solutions is expanding and has leased a facility here with plans to add 225 full-time jobs over the next three years. The new facility, expected to open in 2024 northeast of Baltimore.

Glossary of Terms

Nonagricultural payroll employment: Employment data referring to persons on establishment payrolls who receive pay for any part of the pay period that includes the 12th of the month. Persons are counted at their place of work rather than at their place of residence; those appearing on more than one payroll are counted on each payroll. Establishments are classified in an industry on the basis of their principal product or activity in accordance with the most recent North American Industry Classification System Manual.

Civilian labor force: All persons 16 years and over in the civilian noninstitutional population classified as either employed or unemployed.

Employed persons: All persons who, during the reference week (the week including the 12th day of the month), (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather, childcare problems, maternity or paternity leave, labor management dispute job training, or other family or personal reasons, whether or not they were paid for the time off or were seeking other jobs. Each employed person is counted only once, even if he or she holds more than one job.

Unemployed persons: All persons who had no employment during the reference week, were available for work, except for temporary illness, and had made specific efforts to find employment some time during the 4-week period ending with the reference week. Persons who were waiting to be recalled to a job from which they had been laid off need not have been looking for work to be classified as unemployed.

Unemployment rate: The ratio of unemployed to the civilian labor force expressed as a percent.

Seasonal adjustment: A statistical technique that eliminates the influences of weather, holidays, the opening and closing of schools, and other recurring seasonal events from economic time series. This permits easier observation and analysis of cyclical, trend, and other nonseasonal movements in the data.

For additional labor market information definitions, go to www.labor.maryland.gov/lmi/glossary.shtml.
